A highly renowned summer camp, La Ferme d'André 2.0 has been successfully operating its site in an extraordinary context since its foundation in 1969. On a daily basis, our campers are introduced to farm work, gardening and animal care. They participate in multiple group activities and have the chance to discover the natural richness of its land of 100 acres when hiking and much more!

Choosing a summer camp is an important decision for any family and can be a source of stress, especially for parents whose child requires special care.

Despite your confidence in the implementation of measures that can support the integration of young children, the decision to enroll yours in our camp involves in-depth reflection and open dialogue to ensure first and foremost his well-being. It is important that his experience be most enriching and rewarding, in all respects.

To properly assess your child and our ability to welcome him properly, we must have all the information about his state of health. The more his needs are known, the more we can see to offer him, as well as your family, adapted alternatives for a quality service.
